MEDICINE PROGRAM
COLORADO STATE UNIVERSITY

Veterinary Residential Community

Tentative Workshop Schedule and Information

Students selected for the Veterinary Residential Community (VRC) are expected to attend monthly workshops. By incorporating health and wellness concepts into student learning, these workshops are designed to provide a holistic approach to veterinary education. Additionally, workshops offer an opportunity for participants to socialize in a relaxed setting over dinner.

To support student academics, peer tutoring services are offered to VRC members once per week when school is in session. Tutoring is done in a group setting and is limited to those participating in the residential community.

For questions, contact DVM Professional Resources Coordinator, Adrienne Marcus via email at Adrienne.Marcus@colostate.edu or by calling 970-491-7054.

Specific workshop topics may differ slightly from what is noted on the calendar; however, themes will remain.

Month	Workshop Topic(s)
August	Member Meet and Greet Program Expectations Fort Collins Community and CSU Student Resources
September	Health and Wellness Stress Management Tips Study Skills
October	Financial Education and Resources
November	Conflict Resolution
December	Winter break – no workshop
