

## ***Tuition Classification for the DVM Program***

Admission to the professional veterinary medical program at Colorado State is open to all students. Tuition classification is categorized as Colorado, WICHE, Alaska Resident, or Nonsponsored.

CSU's [tuition and fee schedule](#) presents base tuition and fees for Years 1, 2, 3, and 4. The tuition and fees for fourth year veterinary students are pro-rated on a per-credit basis determined by their selection of specific courses. [Estimated living expenses](#) may also help with your financial planning.

- ***COLORADO:*** Applicants who are “domiciled” in Colorado (not the same as “residency”) for one year or more prior to the date of matriculation into the veterinary program are eligible to be included in the Colorado sponsored pool, and if qualified, will have their obligation to pay a support fee funded by the State of Colorado. For information about [establishing domicile](#), please review the Student Financial Services information on the veterinary program. Questions concerning eligibility for Colorado support should be directed to Colorado State University [Office of Financial Aid](#) 103 Centennial Hall (970)491-6321. Please specify that you are applying to the DVM program.
- ***WICHE:*** Applicants who are “certified residents” of one of the cooperating Western Interstate Commission for Higher Education states (Arizona, Hawaii, Montana, Nevada, New Mexico, North Dakota, and Wyoming) may be eligible for financial support from their home state. Applicant(s) must contact their [state certifying officer](#) to determine if they are eligible for residency certification. In most states, the deadline for receiving completed applications for residency certification is September 15 of the year preceding matriculation. The number of positions supported by each WICHE state is limited. Residency certification by a WICHE state is not a guarantee of admission to the DVM program.
- ***ALASKA RESIDENT:*** Applicants who are certified residents of the State of Alaska will pay sponsored tuition the first two years of the program and will pay Nonsponsored tuition for the third and fourth years. Questions concerning resident eligibility should be directed to the [UAF Office of Admissions](#), 907-474-7500 or 800-478-1823. Please specify you are applying to the UAF/CSU veterinary program. You are required to submit the University of Alaska [“Application For Resident Tuition”](#).

***\*Note: Applicants not confirmed as eligible Colorado, WICHE, or Alaska Resident will automatically be reviewed in the Nonsponsored category.***

- ***NONSPONSORED:*** Nonsponsored students are those students *not* supported by the State of Colorado, one of the WICHE states, the State of Alaska, and are students who are residents of other states or countries. Pursuant to State Statute C.R.S. 23-31-118, these students pay Nonsponsored tuition and fees for every year in which they are enrolled. **Nonsponsored students will remain nonsponsored for the four years of the program.**

The **Board of Governors - Colorado State University System** reserves the right to change the tuition and fee schedule at any time.
