

Equine Reproduction Center

1693 Campus Delivery
Fort Collins, CO 80523-1693
erl@colostate.edu

Dear Client,

Enclosed is the **2026 Embryo Transfer** contract. Please review, complete, and sign the contract and return along with your \$1000 Embryo Transfer Enrollment Fee (use of CSU ERC/RME recipient). The last page of the contract is a list of fees for service.

The completed & signed contract along with Embryo Transfer Enrollment Fee **are required to book a recipient mare at the Equine Reproduction Center for 2026**. There are a limited number of contracts available, and they will be booked “first come, first serve”, meaning that the payment and contract must both be received to fully enroll in the ET program. For your convenience, we accept all major credit cards as well as check payment. Please use the following secure credit card link to make your payment online.

[SECURE PAYMENT LINK](#)

Important Notes: All pregnant mares intended to foal out at the ERC are required to be vaccinated against **Equine Rotavirus** prior to arrival at the ERC (3 dose series; 8, 9, and 10 months). Rotavirus vaccine is in addition to the already required **Rhinopneumonitis** vaccine at 5, 7, 9 months and **Clostridium** vaccine at 6 weeks prior and 3 weeks prior to foaling.

All foals arriving with their dam and intending to stay on the ERC property will have a Well Baby Foal exam performed at intake. The goal is health and safety of all foals at the ERC. Foals noted to have abnormal physical exam parameters (temperature, heart rate, respiration, lung sounds, diarrhea, etc.) may require additional diagnostic tests that will be billed to the mare/foal owner. Foals with medical issues (fever, respiratory disease, diarrhea, etc.) will not be allowed to stay on the ERC property.

Our entire team looks forward to working with you and your mare(s) this upcoming season.

Sincerely,
Equine Reproduction Center Team
970-491-8626

Embryo Transfer Checklist:

- Completed & Signed Contract; Return PRIOR to Appointment
 - Embryo Transfer Enrollment Fee (\$1000) per Donor Mare/Owner/Lessee/Embryo combination
 - Pre-payment or placed your credit card on file
 - Current Coggins, Vaccines, Farrier and Deworming
- If using an **owner provided recipient**, please also return:
- Completed & Signed General Mare Services Contract for recipient mare. Ensure all the above for recipient mare.

Important Dates:

- Jan 5 – Foaling Season opens
- Feb 2 – Embryo Transfer season opens
- June 15 – Foaling Service concludes
- July 1 – Embryo Transfer season concludes
- Aug 1 – All other breeding services conclude

EXPLANATION OF SERVICES
<p>EMBRYO TRANSFER services will be available February 1 – July 1. \$1000.00 Annual Embryo Transfer Enrollment Fee due with the signing of this contract for use of CSU ERC/RME leased recipient mares. This non-refundable, non-transferable fee enrolls the abovenamed Donor Mare for the breeding season of February 1 through July 1. One (1) Annual Enrollment Fee is required for each Donor Mare/Owner/Lessee/Embryo combination for said breeding season.</p> <ol style="list-style-type: none"> 1. In-house management of donor mare includes transrectal palpation, ultrasonography, insemination, administration of one medication to induce ovulation, prostaglandin administration to short cycle, embryo collection (flush). 2. Shipment of Embryo(s) to CSU/ERC ensures availability of 1 recipient mare to receive shipped embryo (includes transfer) <u>only if notified on date of donor mare ovulation</u>. 3. Outpatient Embryo Collection includes embryo collection (flush), and prostaglandin administration. 4. Transfer of Embryo into CSU managed recipient mare or owner recipient mare. 5. Pregnancy & Lease Fee is applied to each pregnant CSU leased recipient mare at 35 days of gestation 6. Pregnancy Fee is applied to owner recipient mare at 25 days. 7. Recipient(s) will be transferred to Donor Mare Owner's account at 16 days gestation. Board and daily progesterone therapy (if needed) will be assessed from that day forth. 8. Recipients are leased by Donor Mare Owner through CSU/ERC from Rocky Mountain Equine, LLC (RME).

HEALTH & MANAGEMENT

Please provide the following information to help us manage your animal. We require disclosure of any medical conditions that could affect management of the animal before acceptance in this program.

Medical Problems / Prior Foaling History:	Current Treatments:
---	---------------------

FEED INSTRUCTIONS

Please provide quantities as measured in flakes. Concentrates are weighed prior to each feeding. The standard diet at CSU/ERC is grass or alfalfa hay and a balanced concentrate.

Hay Type & Quantity (pounds):	Grain Type & Quantity (pounds) <i>*Must provide 30-day supply if using Owner provided.</i>
Supplements & Quantity. Must provide a 30-day supply, pre-bagged (if more than 1 supp.)	

TERMS AND CONDITIONS

This Embryo Transfer Agreement (“Contract”) is entered into on the last day of signature (“Effective Date”) by and between the Board of Governors of the Colorado State University System, acting by and through Colorado State University, for the use and benefit of the College of Veterinary Medicine and Biomedical Sciences, Equine Reproduction Center (hereafter referred to as “CSU/ERC”), and the Donor Mare Owner identified on page 1 above. CSU/ERC agrees to attempt embryo recovery from Donor Mare identified on page 1 and/or transfer embryos considered suitable into the reproductive tract of a synchronized recipient mare or ship suitable embryos to outside facility determined by Donor Mare Owner.

1. The person signing this Contract represents and warrants that he/she is the **true and lawful owner** of the Donor Mare, or if not the owner, then has actual authority to act as Owner’s agent for purposes of entering into this Contract, and to make any and all decisions regarding the animal and its veterinary care. The Donor Mare Owner represents that they are the lawful owner of any frozen semen used in procedures, and if not, the Donor Mare Owner will provide CSU/ERC with contact information for the lawful owner. The signatory shall be fully responsible for all charges incurred under this Contract and shall indemnify, defend and hold harmless CSU/ERC from any and all claims, of every kind and nature, arising as a result of or in connection with this Contract (including any claim that such person lacked the right or authority to execute this Contract on behalf of the true owner). All references in this Contract to the Donor Mare Owner shall be deemed binding upon the person signing this Contract and the owner of the Donor Mare (hereinafter, individually and collectively referred to as the Donor Mare Owner).
2. Donor Mare Owner agrees that during the period CSU/ERC is in possession of the Donor Mare and/or foal, good equine practice may suggest and/or require the Donor Mare and/or foal be vaccinated, dewormed, and feet trimmed or shod. Therefore, during the term of this Contract, the Donor Mare Owner hereby grants to CSU/ERC the right and authority, based upon its independent judgment, to administer **routine preventative medicine** and to have the Donor Mare and/or foal trimmed or shod at any time by a farrier selected by CSU/ERC. The Donor Mare Owner will be billed directly by farrier for all farrier services.
3. The Donor Mare Owner hereby releases and shall indemnify and hold CSU/ERC harmless from any claim, demand or loss arising from any disease, injury or death to the Donor Mare and/or foal and/or pregnant recipient mare and/or in utero foal arising out of any undertaking by CSU/ERC under the terms of this Contract. Further, the Donor Mare Owner shall exonerate, protect, indemnify, defend, and hold harmless CSU/ERC, and Rocky Mountain Equine, LLC (hereafter referred to as RME), Lessor of the recipient mare(s), from and against any and all liabilities, expenses, claims, fines, penalties, costs, attorney’s fees, and damages of every kind (including, without limitation, those arising out of or attributed, directly or indirectly, to or resulting from any and all negligent acts or omissions of the Donor Mare Owner), or of any person while the recipient mare(s) are under the Donor Mare Owner’s possession or control, whether caused by the sole negligent acts or omissions of Donor Mare Owner or by the concurrent negligent acts or omissions of Donor Mare Owner, arising out of or attributed, directly or indirectly, to the use, possession, transportation (except for transportation, delivery and pick up by CSU/ERC or RME), condition, or storage of the mares, irrespective of the legal theory upon which any such claim or suit may be based. This indemnification shall extend to the successors and assigns of CSU/ERC and RME. **WARNING: Under Colorado Law, an equine professional is not liable for an injury to or the death of a participant in equine activities resulting from the inherent risks of equine activities, pursuant to section 13-21-119, Colorado Revised Statutes.**
 - a. Donor Mare Owner hereby releases and shall indemnify and hold CSU/ERC harmless from any claim, demand or loss arising from transport or transport regulations. Donor Mare Owner is responsible for knowledge and adherence to guidelines for intrastate, interstate, and/or international movement or export of mare/pregnant recipient/foal/stallion/embryo/oocyte/semen. CSU/ERC or RME does not screen recipients for previous disease exposure or vaccinations (e.g., antibody titers). Donor Mare Owner shall exonerate, protect, indemnify, defend, and hold harmless CSU/ERC and RME from any and all liabilities, expenses, claims, fines, costs, attorney fees, and damages of every kind associated with vaccinations and recent or previous exposure to disease and their impact on transportation.
4. **Embryo Transfer services are available February 1–July 1. A non-refundable \$1000.00 Annual Enrollment Fee per Donor Mare/Owner/Lessee/Embryo combination is due at signing for CSU ERC/RME leased recipient mare use.**
 - a. A total lease fee of \$3,000 (includes \$500 deposit) will be added to Donor Mare Owner’s account at day 35 of gestation. A **pregnancy fee of \$2,500** will be applied to Donor Mare Owner’s account at day 35 for each pregnant recipient mare. A **pregnancy fee of \$1,500** will be applied to Donor Mare Owner’s account at day 25 for a successful pregnancy transferred into an Owner Provided recipient mare.
 - b. If recipient mare is re-leased for a subsequent embryo transfer after foaling, a total lease fee of \$2,500 will be added to Donor Mare Owners account when notified of successful pregnancy. The original lease agreement will roll forward an additional year.
 - c. *Live Foal Guarantee:* In the event a recipient mare loses her pregnancy after 75 days or the newborn foal fails to stand and nurse, the Donor Mare Owner will receive a \$1,000.00 credit from CSU/ERC. This credit is good for use in the current breeding season or the next breeding season.

The Donor Mare Owner must submit a notice signed by a licensed veterinarian confirming the pregnancy loss to the ERC within 10 days of loss to be eligible for the credit.

- d. Donor Mare Owner agrees to return recipient mare(s) in good condition after weaning and no later than December 31 of the foaling year directly to RME. If Donor Mare Owner returns recipient mare to ERC instead of RME, Donor Mare Owner will incur **\$275** transportation and handling fee plus any board **charges** while at the ERC until transportation can be arranged to RME. If recipient mare is **NOT** returned to RME, or the mare is returned in poor condition at the discretion of RME; which can include but not limited to poor body condition, lack of farrier care, the \$500 refund of deposit will be null and void.
 - e. If recipient mare should die under the care of the Donor Mare Owner, a deceased mare fee of **\$1,500** will be payable to RME and return of deposit will be null and void. **A signed letter from attending veterinarian must be submitted to CSU ERC within 10 days of death.** If recipient mare is alive but does not return by December 31 of the foaling year, the Donor Mare Owner will be charged **\$3,500 for mares age 3 – 10 years** and **\$3,000 for mares age 10+ years** old by RME with the assumption that the Donor Mare Owner has elected to purchase the recipient mare from RME. \$500 refund of deposit will be null and void.
 - f. Recipient mare is the property of RME, and the Donor Mare Owner is leasing the mare for her surrogate services. Therefore, it is unlawful for anyone other than RME to sell the mare. If the Donor Mare Owner elects to sell his/her embryo while in utero, or offspring on the side of the recipient mare, they must first purchase the mare from RME. The mare can be purchased for **\$3,500** and the \$500 refund of deposit will be null and void. If the mare is then returned in good condition at the discretion of RME, by either original Donor Mare Owner or new owner, RME will buy the mare back for \$2,500.
5. The Donor Mare Owner agrees to pay **all fees related to the lease, pregnancy, and care** of the recipient mare(s), including any veterinary or miscellaneous expenses incurred after day 16 of gestation through foal weaning and the mare's return. Donor Mare Owner also agrees to pay for all required departure documents (e.g. Coggins test, health certificate and brand inspection). See Fee Schedule attached and incorporated herein. Donor Mare Owner should pick up recipient mares after 35 days of gestation and prior to 120 days gestation.
 6. The Donor Mare Owner shall be responsible for all charges associated with the shipment, storage, and handling of semen and/or embryos to CSU/ERC, including but not limited to express mail, courier, airline, and return freight fees. The Donor Mare Owner shall also be responsible for all costs related to the disposition or storage of cryopreserved embryos remaining at the end of the breeding season (September), including the cost of returning, storing, or destroying any unused embryos. Please indicate desired disposition of unused embryos:
 - a. Agree to pay for storage
 - b. Agree to pay to return/transport embryos to another site
 - c. Disposal of unused embryos
 7. Frozen Embryo storage fees will be billed monthly. When invoices for frozen embryos are not paid to CSU/ERC through six billing cycles, a certified letter will be sent to Donor Mare Owner requesting that embryo billing is brought current. Embryos will be destroyed 30 days from date of certified letter, whether or not received/accepted by Donor Mare Owner, if account is not paid in full. CSU/ERC will attempt to maintain storage costs at current prices. CSU/ERC reserves the right to adjust prices accordingly as material costs increase or storage procedure changes. Owner will be notified of price increases in writing.
 8. CSU/ERC shall take reasonable efforts to maintain the frozen embryos in proper storage conditions pursuant to this Contract, with proper care, handling and protection according to reasonable standards and practices of the equine industry. The Donor Mare Owner agrees to assume all responsibility for the frozen embryos and shall bear all risk of loss or damage to the frozen embryos, whether by loss, infection, theft or otherwise and by any cause whatsoever, and agrees to hold CSU/ERC (or any person employed by or associated with CSU/ERC) harmless on any and all damages associated therewith.
 9. Donor Mare Owner agrees to **pay all charges in full** before removing the frozen embryo, pregnant recipient(s) or Donor Mare. See Fee Schedule attached hereto. Donor or recipient mares will not be released if insufficient notice is given or the bill is not paid prior to departure. At least one-week advance notice must be given prior to removal of embryos, departure of the donor and/or pregnant recipient mares to allow preparation of required paperwork. The Donor Mare Owner is required to make transportation arrangements for pregnant recipients between the hours of 7:30 am to 4:30 pm Monday through Friday, unless previous arrangements have been made well in advance.
 10. Donor Mare Owner is responsible for **obtaining and paying for any insurance** desired on the Donor Mare and/or pregnant recipient and/or *in utero* foal and/or frozen semen stored and/or frozen embryos for Donor Mare. CSU/ERC **does not** provide insurance.
 11. Donor Mare Owner is responsible for **parentage testing** of any embryo transfer foal.
 12. Donor Mare Owner is responsible for all **Breed Registry rules and regulations** and including, but not limited to, brand inspections required by law. Donor Mare Owner shall promptly furnish proof of ownership, breed registry and brand inspection upon request by CSU/ERC.
 13. CSU/ERC may initiate emergency medical or surgical treatment, including transfer to the Johnson Family Equine

Hospital or another veterinary facility, if deemed necessary. CSU/ERC will make reasonable efforts to contact the Donor Mare Owner before treatment or transfer. The Donor Mare Owner is responsible for all associated costs, billed directly by the treating facility.

14. This **Contract is non-transferable**. If the Mare is sold, all unpaid fees become immediately due and payable and no refunds will be made. This Contract is subject to the laws of the State of Colorado.
15. CSU/ERC practices colostrum banking for foaling mares that produce colostrum of adequate quality. This colostrum is first stored for potential use by that mare's own foal, if needed. If it is not required, the colostrum may then be used to support a subsequent foaling mare and her newborn foal at the CSU/ERC.
16. CSU/ERC reserves the **right to discontinue service** at its discretion and to terminate this Contract upon 2 days' notice to Donor Mare Owner. This can include behavioral and safety concerns related to Donor Mare and/or foal while in the care of CSU/ERC. Donor Mare must be halter broke; meaning caught in a stall with reasonable effort and able to lead safely from stall to palpation stocks and in general terms be safe to work around. There will be no refunds on services provided PRIOR TO or during this Contact if terminated by either Party.
17. By signing this Contract, I hereby grant CSU/ERC the irrevocable right and permission to photograph and/or record my Mare/Donor Mare/Foal/Stallion in connection with CSU/ERC and to use the photograph and/or recording for educational, research or promotional purposes but not limited hereinto. I waive any right to inspect or approve the use of the photograph and/or recording and acknowledge and agree that the rights granted to this release are without compensation of any kind. I also hereby grant CSU/ERC the irrevocable right and permission to collect and obtain both non-invasive and/or disposable samples from my Mare/Donor Mare/Foal/Stallion for the purpose of research or education while being managed at the ERC. ____ Opt-out of photo/videography (*must initial*)
18. Each party agrees to **comply with all applicable federal, state and local laws, codes, regulations, rules, and orders**. This Contract shall be governed by the laws of the State of Colorado, and any legal action concerning the provisions hereof shall exclusively be brought in the District Court in Larimer County, Colorado. If it is determined that a brand inspection ticket is required in order to authorize any transfer or transport of animals under this Contract, Donor Mare Owner hereby authorizes and appoints CSU/ERC to execute any required documents on Donor Mare Owner's behalf.
19. Payment is due upon dismissal or within 30 days of the invoice in the case of continued services. Late payments incur a \$25 handling fee and 1.5% monthly interest. Failure to remit payment within 30 days after invoice or to perform any term, condition, or covenant of this Contract—continuing for 10 days after written notice—constitutes default. In the event of default, CSU/ERC may suspend services, terminate this Contract as of the date specified in the notice, and pursue any remedies available at law. Accounts more than 120 days past due will be referred to CSU Collections, and the Donor Mare Owner shall be responsible for all collection costs and attorney fees. Pursuant to C.R.S. 38-20-203, CSU/ERC retains a lien on all animals and property in its possession until payment is received. Jurisdiction and venue for enforcement or relief actions shall be exclusively in the District Court of Larimer County, Colorado. This **Contract constitutes the entire understanding** between the parties and supersedes any previous contract or understandings, whether oral or written, concerning the subject matter of this Contract. No services other than those expressly stated in this Contract will be provided by CSU without an express, written and signed amendment to this Contract.
20. CSU/ERC shall be responsible to the fullest extent allowed under the law for its own negligence, and the negligence of its employees and authorized volunteers acting within the scope of their actual authority. It is expressly understood and agreed that nothing contained in this Contract shall be construed as an express or implied waiver by CSU/ERC of its governmental and sovereign immunities, as an express or implied acceptance by CSU/ERC of liabilities arising as a result of actions which lie in tort or could lie in tort in excess of the liabilities allowable under the Colorado Governmental Immunity Act, C.R.S. 24-10-101 et seq., as a pledge of the full faith and credit of the State of Colorado, or as the assumption of any of the parties of a debt, contract or liability of each other in violation of Article XI, Section 1 of the Constitution of Colorado. As an institution of the State of Colorado, CSU/ERC is not authorized to indemnify any party, public or private, as against the claims and demands of third parties and any such indemnification provision in this Contract shall be null and void.
21. **Assumption of Risk and Acknowledgment of Potential Complications**
The Donor Mare Owner acknowledges and understands that equine reproductive procedures, including but not limited to rectal palpation and ultrasound examination, artificial insemination, embryo collection and transfer, oocyte aspiration, and other assisted reproductive techniques, carry inherent risks. These risks may include, but are not limited to, rectal tears, infection, bleeding, colic, injury, abortion, foaling dystocia, or death of the mare/foal/stallion/or embryo. The Donor Mare Owner further understands that, despite the exercise of the highest standard of professional veterinary care, complications can occur that may require additional diagnostic procedures, treatments, surgery, or other veterinary interventions, which may incur additional costs.
By engaging the services of the Colorado State University Equine Reproduction Center, the Donor Mare Owner acknowledges these risks and consents to the performance of such procedures, accepting responsibility for associated outcomes and expenses.

EMBRYO TRANSFER FEE SCHEDULE

Board/Care per Day

Mare Board	\$37.50 /day (applies to donor and/or owner recipient)
Wet Mare Board (mare + foal)	\$39.50 /day (applies to donor and/or owner recipient)
Recipient Mare (CSU leased mare)	\$21 /day after day 16 (includes Regumate therapy if indicated)

Embryo Transfer Services (Feb 1 – July 1)

Embryo Transfer Annual Enrollment (CSU Recip)	\$1000.00 /donor or frozen embryo
Donor Management w/ Fresh or Cooled Semen	\$650 /cycle
Donor Management w/ Frozen Semen	\$750 /cycle
Owner Recipient Mare Management	\$375 /cycle (separate general mare service contract)
Pregnancy Fee – Owner Recipient	\$1,500 at day 25
Non-breeding Cycle Management	\$325 /cycle
Shipped-In Embryo Fee	\$450 /cycle /ovulation
Outpatient (Haul in) Embryo Collection	\$450 /flush
Embryo Transfer Fresh	\$450 /embryo
Embryo Transfer ICSI Fresh	\$675.00 /embryo
Embryo Freezing	\$375 /embryo
Frozen Embryo Storage	\$30 /month for up to 4 embryos
Warming & Transfer of Vitrified/Frozen Embryo	\$675
Lease Fee – CSU Recipient	\$3,000 /per pregnant recipient mare at day 35; (\$500 deposit refundable upon return of recip mare)
Pregnancy Fee – CSU Recipient	\$2,500 / per pregnant recipient mare at day 35
Foaling Management & Well Foal Care (Jan 6 – June 15 only)	\$850

Includes video surveillance, Foalart® monitoring, milk calcium screening, NI testing, and colostrum evaluation on the mare. Also included are post-foaling deworming (ivermectin), routine umbilical cord care, administration of an enema, one IgG test of foal (passive transfer in foal), and foal clostridium prevention included. Owner/Agent agrees to pay veterinary fees and charges associated with additional, non-routine therapy deemed necessary for proper management of the pregnant, foaling or postpartum mare (e.g. oxytocin therapy, uterine lavage or other treatments for retained placenta, etc.) or the newborn foal (e.g. supplementation with additional colostrum and/or plasma, etc.)

Embryo Flush & Transfer (* Procedures are included in donor management contract pricing)

Ultrasound & Palpation*	Included in cycle	Dystocia	\$Variable
Artificial Insemination*	Included in cycle	Induction of Labor	\$200
Prostaglandin*	Included in cycle	Colostrum (frozen-thawed, includes NG tube)	\$140 /unit
Ovulatory Hormones*	Included in cycle	Seramune® Oral IgG (equine antibody product, includes NG tube)	\$155 /unit
Oxytocin (per day)	\$16	Naso-gastric intubation (NG tube)	\$35
Uterine Lavage: Level I	\$115 /treatment	Plasma & Administration (includes catheter & administration set)	\$375/liter
Uterine Lavage: Level II	\$125 /treatment	Acetylcysteine enema (meconium impaction)	\$80
Uterine Culture & Sensitivity	\$95	Sodium phosphate enema (Fleet® or similar)	\$13
Uterine Cytology	\$50	Equidone® (domperidone)	\$15/dose (\$62 tube)
Uterine Biopsy	\$165	Additional IgG Test (1 st test is included)	\$36
Intrauterine Antibiotics	\$65 - \$75 /treatment	Frozen Semen Handling Fee (at ERC arrival)	\$50
Well Foal Exam / stay	\$40		

All foals arriving with their dam and intending to stay on the ERC property will have a Well Baby Foal exam performed at intake.

Miscellaneous Services

Daily Treatment Fee	\$7.00 /day (mare or foal; can vary on frequency of treatment)
Regumate Administration	\$6.50 /day
Progesterone Analysis	\$65
Shipping – varies by service requested	\$Varies
Owner Supplement or Grain Allocation	\$60 each
Farrier Holding Fee	\$25 /hr
