

## Freezing, Handling & Storage of Stallion Semen

**DATE:** October 5-6, 2023

**FEE:** \$950

**CE:** 10 CE hrs

COURSE IS LIMITED TO 8 PARTICIPANTS

The frozen semen course is designed for anyone seriously interested in learning the techniques involved in freezing, thawing, handling and insemination of equine spermatozoa.

Topics to be covered include:

- Response of spermatozoa to freezing
- Preparation of semen for freezing
- Techniques for freezing equine semen
- Proper handling, storage and thawing procedures
- Post-thawing evaluation of semen
- Management of mares for frozen semen and insemination techniques

Hands-on laboratory sessions provide an opportunity for registrants to freeze, thaw and evaluate equine semen.

Previous experience in semen collection, evaluation and insemination procedures or attendance at a CSU Equine Reproductive Management continuing education short course is required as a prerequisite for this course. It is recommended to complete the on-line course Stallion Frozen Semen prior to attending this course.

The continuing education programs for horse owners provided by Colorado State University are renowned for being practical and thorough with an innovative hands-on approach.

**Courses are held at the Equine Reproduction Laboratory  
Colorado State University, 3101 Rampart Rd., Fort Collins, CO 80521**

CSU ERL reserves the right to cancel courses at any time.
