

Residency Training Program in Equine Sports Medicine and Rehabilitation Colorado State University

Are you passionate about equine lameness, rehabilitation and performance? Do you want to advance your clinical skills while also furthering your scientific and research interests? If so, we encourage you to apply to be part of our team!

A traditional 3-year residency in equine sports medicine and rehabilitation is being offered by the Department of Clinical Sciences at Colorado State University. The goal of the residency is to expose the individual to all facets of equine sports medicine and rehabilitation in order to qualify for board certification in the American College of Veterinary Sports Medicine and Rehabilitation. In addition to partaking in a strong clinical caseload, the resident will participate in clinical teaching of students, rounds and seminar presentation to peer groups, development of research projects and coursework leading to a Master's degree in the Department of Clinical Sciences. The majority of the clinical training will be spent participating in the evaluation, treatment and rehabilitation of performance horses in the Equine Sports Medicine and Rehabilitation Service at Colorado State University. The residency training program will begin mid-July in 2024 and last for 3 years in duration.

The application deadline is November 3, 2023, 11:59pm mountain standard time. Late applications will not be accepted.

Applicants will be notified by December 4, 2023 as to whether or not they will receive an in-person interview.

- In-person interviews will be conducted the week of January 16-19, 2024. If selected for an in-person interview please be available for two consecutive days that week. If necessary, virtual interviews will also be conducted on the above mentioned dates. Interviews or visitations will not be allowed outside of the above mentioned dates.

Prerequisites include:

1. DVM degree or equivalent
2. Completion of at least a one year equine internship in medicine and surgery or private practice equivalent
3. Eligibility for admission to the graduate school at Colorado State University

The applicant should send the following:

- Curriculum vitae
- A letter of intent that states why a sports medicine and rehabilitation residency program is desired and how it will help the applicant to achieve future career goals
- Transcript of grades including documentation of graduation
- Three letters of recommendation from persons that are familiar with the applicant's qualifications

Applications will not be submitted through the Veterinary Intern/Residency Matching Program. Instead, all application materials and reference letters should be sent directly via e-mail to Melissa.king@colostate.edu.

CSU is an EO/EA/AA employer and conducts background checks on all final candidates
